Greenfield Communications, Inc.)		
)	WC Docket No	
)		
Section 63.71 Application to Discontinue)		
Domestic Telecommunications Services)		

SECTION 63.71 APPLICATION

Greenfield Communications, Inc. ("Greenfield"), in accordance with

Section 63.71 of the Commission's rules, (47 C.F.R. 63.71) hereby requests authority to discontinue the

Provision of domestic telecommunications services to 412 residential and small office/home office

("SOHO") customers in five communities in California as of February 28, 2018.

In support of this application, Greenfield provides the following information in

accordance with Section 63.71(b) of the Commission's rules:

Name and address of carrier

Greenfield Communications, Inc. 34112 Violet Lantern, Suite C Dana Point, CA 92629

Planned discontinuance date and geographic areas affected

Greenfield plans to discontinue its telecommunications services to residential and SOHO customers in five communities in California affecting 412 customers as of February 28, 2018, or as soon as possible thereafter once the necessary regulatory approvals have been obtained.

These communities are as follows:

Fairway Canyon in Beaumont, CA (155 customers)

Amerige Heights in Fullerton, CA (30 customers)

College Park in Chino, CA (30 customers)
Riverbend in Orange, CA (13 customers)
Lincoln Crossing (155 customers)

Description of affected service

Greenfield will discontinue providing any telecommunications services in the communities stated above to residential and SOHO customers. Affected services include local services, intra-island long distance service, and interstate and international long distance service.

Brief description of the dates and methods of notice to all affected customers

January 16, 2018; Greenfield Communications, Inc. (Greenfield) was notified by Fibersphere Communications LLC (Fibersphere) that the fiber optic network upon which Fibersphere owns, was being retrofitted, resulting in the inability to provide VoIP traffic over Fibersphere's in home optical converters.

Greenfield uses the Fibersphere fiber optic network to deliver VoIP services as a non-dominant provider. There are five communities impacted by the Fibersphere retrofit and as a result Greenfield will need to discontinue service to 412 VoIP customers.

Fibersphere was made aware of the impact of their retrofit to the delivery of Greenfield's voice service but decided to move forward anyway with their system retrofit. Fibersphere has informed Greenfield that work pertaining to the retrofit would commence immediately.

The Fibersphere fiber optic network is located in streets also served by dominant Telephone and Cable TV providers that also offer voice services.

Greenfield has issued notification to the affected customers and is assisting them to transfer service if they desire.

On January 18, 2018, Greenfield notified each affected customer of the proposed discontinuance by mail to the customer's billing address on file with Greenfield. Each customer received a copy of the notice In accordance with Section 63.71(a) of the Commission's rules, copies of this application are being submitted to the California Public Utilities Commission, the Governor of the

State of California as well as to the Special Assistant for Telecommunications to the Secretary of Defense.

Carrier's regulatory classification

Greenfield is classified as non-dominant with respect to the services at issue in this application.

Additional information

Any questions relating to this application may be directed to the undersigned for Greenfield

Conclusion

The proposed discontinuance of Greenfield's services to residential and SOHO customers in the affected communities will not adversely affect the public convenience or necessity, as reasonable substitutes for these services are available from numerous competing carriers.

Greenfield therefore respectfully requests that the Commission grant Greenfield the requested authority to discontinue its provision of the services described herein.

Respectfully submitted,

Greenfield Communications, Inc.
